

Sheet Filter BECO-COMPACT PLATE 200 SF-E

(Lot-No. P70 00 201)

Sheet Filter BECO-COMPACT PLATE 200 SF-E

Complete sheet filter with chassis in stainless steel. Manuel compression of filter with central spindle. Chassis equipped with rigid tubing, self priming centrifugal pump, pressure gauge at filter inlet, ball valve with integrated sampling cock at filter outlet and drip tray with drainage cock.

Filter equipped with 20 plastic filter plates incl. front and end plate to hold 19 depth filter sheets at the size 20x20 cm. An optional change over plate provides the possibility for a double filtration.

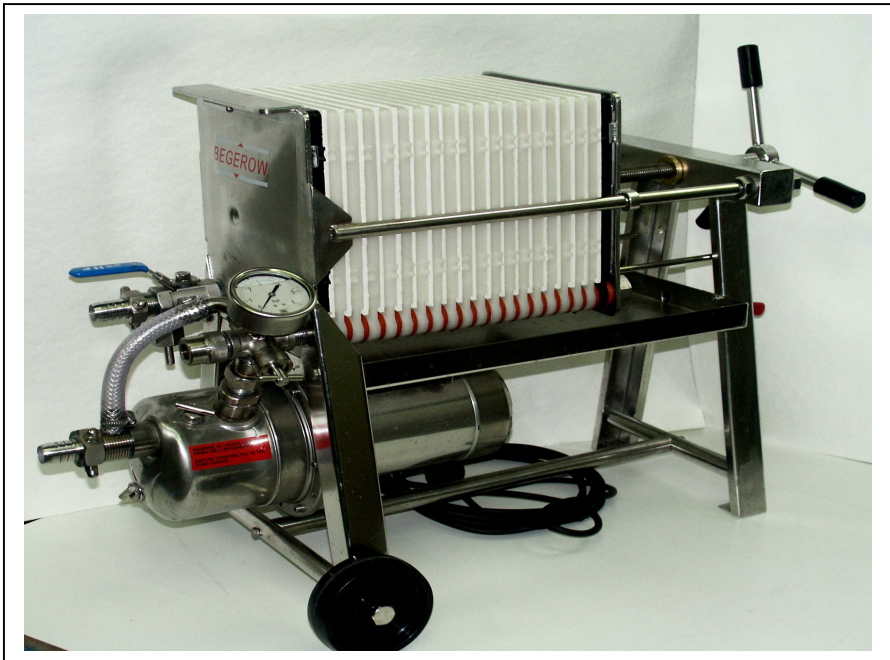

Technical Data:

Filter area per sheet:	0,035 m ²
Max. pressure:	3,2 bar
Max. temperature:	90°C
Pump output:	0,5 to 45 Liter / min
Max. pump pressure:	3,2 bar
Pump motor output:	0,37 KW, 230 V, 50 Hz, 2 800 rev./ min.

Connections:

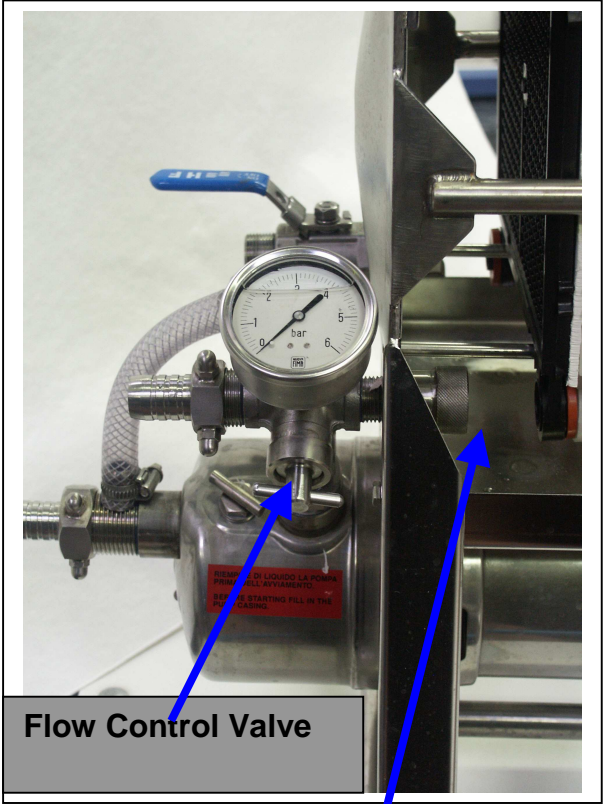

Inlet and outlet: tube connection: 20 mm
